ATTACHMENT 2

Summary

The purpose of this report is to present to Council the report on the Community Strategic Plan and the implementation of the performance targets contained with the Operational Plan 2017-18.

Commentary

Section 404 of the Local Government Act 1993 provides that the Council must prepare a Delivery Program detailing the principal activities to be undertaken by the council to implement the strategies established by the community strategic plan within the resources available under the resourcing strategy.

Council's Community Strategic Plan represents the highest level of strategic planning undertaken by Council. The Plan identifies the main priorities and aspirations of the community, providing a clear set of strategies (objectives) to achieve this vision of the future for the Shire. It also takes into consideration the issues and pressures that may affect the community and the level of resources realistically available.

Council's Plan is based on the social justice principles of access, equity, participation and rights. It addresses the quadruple bottom line (social environmental, economic and civic leadership) issues.

Council's previous Plan was reviewed, updated and adopted by Council in June 2017 following extensive community consultation.

Contained within Council's Operational Plan 2017-18 are proposed actions and performance targets that identified how the Council would undertake the completion of the activities identified in the Community Strategic Plan during the 2017-18 financial year.

Attached to this report is a review of the adopted strategies and actions contained within that Plan for the period ending December 2017.

Summary

The purpose of the report is to enable the Council to consider the appointment of an additional community representatives to the White Cliffs Hall Committee, a S355 Committee of Council.

Commentary

Section 355 of the Local Government Act 1993 enables the Council to appoint community members to committees of Council whose primary task is to manage functions of the Council. Generally, this is achieved by the appointment of community members to assist the Council in managing community assets, but can also be used as a method to ensure community input into other functions of the Council.

At the meeting of the Committee on 28 November 2017, the Committee resolved, following a review of Committee membership, to seek Council consent to appoint in total the community representatives to the Committee. The Committee has also advised that they have made the following Management Committee appointments in accordance with the Committee’s Terms of Reference:

Chairperson/President:	Ron Dowton
Vice President:	Paul Webber
Secretary/Treasurer:	Clair Inness

(a) Policy Implications

Appointment of the Committee members will ensure Council complies with the provisions of the Act and its policy.

Members of S355 Committees are generally not paid but may seek reimbursement of expenses. At the present time, Council is not in a position to consider reimbursement except on a case by case basis. Committees, by resolution and from retained funds, can agree to reimburse expenditure relevant to the Committee’s Terms of Reference.

7.2 WORKS PROGRAM

ATTACHMENT 4

The Yearly Grading Program has been included to enable Council to follow the progress of the grading crews working throughout the Shire. Any changes will be presented monthly.

7.3 LANDFILL CONSOLIDATION AND ENVIRONMENTAL IMPROVEMENTS GRANTS PROGRAM

The Landfill Consolidation and Environmental Improvements grants program will provide \$5 million over two years (until 2019/20) to fund landfill consolidation, closure or environmental improvements of rural and regional landfills. This is the third round of funding under this program which has allocated a total of \$6.8 million to 60 successful projects. The closing date is 23 November 2017.

Council is responsible for 6 Landfills; Wilcannia, Ivanhoe, Menindee, White Cliffs, Sunset Strip and Tilpa. Following an inspection by Environmental Protection Authority (EPA) Officers in November 2016 it became evident that Council's management of landfill premises could facilitate potential harm to the local environment. Council subsequently produced Landfill Management Plans to address the long-standing issues at the landfill sites.

The Management Plans and further inspections by staff and environmental consultant identify immediate improvements required at Wilcannia, Menindee and Ivanhoe sites. In this regard, staff are preparing applications for each of these landfills at present. Additionally, NetWaste will provide expertise and guidance and the EPA have offered their support.

Grants of up to \$200,000 (excluding GST) will be available per stream for landfill consolidation and closure, and environmental improvements. Funding will be available to provide up to 70 per cent of the eligible costs and the remainder of the costs (minimum 30 per cent) must be covered by Council's financial or in-kind contributions. Council's contribution can be sourced from within operational budget constraints.

Further details will be provided to Council following completion of the applications.

7.4 SAFE AND SECURE WATER PROGRAM

The Safe and Secure Water Program is a program established as part of the Restart NSW Program to fund eligible water and sewer projects that will deliver public health, environmental and social benefits to regional communities which in turn support economic growth and productivity in the State. This funding available supersedes the now redundant Country Towns Water and Sewerage Program.

Council has identified three main projects which are eligible for funding, these being:

- Wilcannia Township Gravity Sewer Scheme
- Ivanhoe Water Treatment Plant
- Wilcannia Water Treatment Plant

NSW Government co-funding is available for both planning and construction projects as follows:

- Preliminary planning
- Business case development
- Detailed design and construction

As part of preconstruction funding already received, and in progress, the Ivanhoe Water Treatment Plant and Wilcannia Water Treatment Plant have been assessed and design will be completed shortly. Council will soon be able to seek capital cost funding.

The Wilcannia Township Gravity Sewer Scheme aims to replace existing pressure system and associated pump stations that are nearing end of useful life. Recently completed sewerage schemes in the Mallee and Warrali Aboriginal estates have proven to be highly beneficial to residents and Council alike.

Councils annual water and sewer revenue is less than \$5M, meaning that the amount of funding that Council would be eligible for is up to 75%. It is proposed to submit an expression of interest for the scoping study phase of the Wilcannia Township Gravity Sewer Scheme at this time. There may be the possibility of additional funding pursuant to the Aboriginal Water and Sewerage Program considering Wilcannia's isolation and dominant indigenous population.

Further information will be provided to Council and no commitment has been made with respect to funding and budget allocations.

7.5 ABORIGINAL COMMUNITIES WATER SUPPLY AND SEWERAGE PROGRAM

The Aboriginal Communities Water Supply and Sewerage Program provides annual funding for operational costs with respect to the provision of water and sewerage services for the Warrali and Barkindji Aboriginal Estates in Wilcannia.

The program also provides capital funding for approved capital works. In this regard funding approval has been provided for replacement of the Warrali Sewerage Pumping Station rising main, ancillary pipework, access works and fencing subject to quotation submission. These works are expected to be completed by Christmas 2017.
