### 7.3 COBB HIGHWAY – INITIAL SEAL PROJECTS

Council continue to progress with the 10.3km initial seal project. Wet weather in late 2016 has resulted in project delays, additional resources have been allocated to the project to speed up construction to meet programmed dates. The first 5km is anticipated to be sealed in June 2017 with project completion September 2017.

RMS scheduled site inspection and audits have been completed early May 2017.

Further projects are in the initial development phase, details of which will be provided to Council for information upon receipt from Roads and Maritime Services.

## 7.4 COUNTRY TOWNS WATER SUPPLY, REGIONAL WATER AND WASTEWATER BACKLOG

Recapping previous advice, NSW Water Solutions has been engaged to complete the next stage of the pre-construction phase of the Ivanhoe, White Cliffs and Wilcannia Augmentation Project and complete option reports for these facilities at these locations.

These studies will build upon the scoping reports completed by CWT Pty. Limited. On completion of the option studies, further consideration will be given to engagement of suitable consultants/contractors to complete the remaining pre-construction activities with respect to concept design, design and construct specification and tender documentation with an overall completion deadline of June 2017.

The additional studies are listed below,

- 1 update the Integrated Water Cycle Management (IWCM) Strategy to comply with the July 2014, DPI Water IWCM Check List;
- 2 options study for each of the proposed new water treatment plants;
- 3 concept design for each of the proposed new treatment plants;
- 4 hydraulic analysis for reticulation networks at Wilcannia and White Cliffs;
- 5 condition assessment of existing reticulation at Wilcannia, Ivanhoe and White Cliffs;
- 6 review of environmental factors;
- 7 topographic survey for White Cliffs;
- 8 geotechnical and survey of the three treatment plants; and
- 9 tender documentation.

As previously advised these studies are 100% funded through the Restart Program, Regional Water and Backlog Program and targeted at pre-construction activities only.

The current snapshot of progress with respect to these activities is provided below, as advised by NSW Water Solutions (Public Works).

### Water Demand Analysis

Production and metered demand information was reviewed and after reviewing the data several gaps and inconsistencies were identified. We have completed the following items of the water demand analysis:

- unit residential metered demands for Ivanhoe, Wilcannia and White Cliffs;
- non-residential metered demands for Ivanhoe, Wilcannia and White Cliffs;
- climate corrected production for Wilcannia;
- production statistics for White Cliffs (no climate dependence); and
- the NRW for White Cliffs.

We will be able to calculate the climate corrected production and non-revenue water for Ivanhoe potable supply based on information that we are awaiting. We currently are not able to estimate the NRW for Wilcannia.

### Water Treatment Plant (WTP) Process

WTP process options have been identified and the concept design is now able to progress.

### Environmental Approvals

Proposals for specialist studies and additional costs to prepare statement of environmental effects for White Cliffs and Ivanhoe, have been issued to Council. Approval from Council has been granted.

#### Water Harvesting Systems

Council has received the Ivanhoe Weir survey from the public works consultant. Hydrodynamic modelling for White Cliffs system has been completed and submitted to Council for review. Council is currently seeking the services of a land surveyor to undertake a drone survey of the White Cliffs area with a view to identifying additional water storage locations.

#### Hydraulic Analysis

Hydraulic models have been setup for all systems. We are awaiting demand data following the completion of the demand analysis.

The overall project program remains on track. Refer to project Gantt Chart attached.

Council received confirmation of 100% construction funding for the White Cliffs Augmentation to the value of \$5.5M pursuant to the Country Towns Water and Sewerage Program – Backlog Works. Works commence in mid-2017 following confirmation of capital funding and completion of necessary studies, reports and tender documentation.

## 7.8 COMMUNITY STRATEGIC PLAN

The Council's Community Strategic Plan (the Plan) completed in 2012, represents the highest level of strategic planning undertaken by Council. The Plan identifies the main priorities and aspirations of the community, providing a clear set of strategies (objectives) to achieve this vision of the future for the Shire. It also takes into consideration the issues and pressures that may affect the community and the level of resources realistically available.

Council's Plan is based on the social justice principles of access, equity, participation and rights. It addresses the quadruple bottom line (social environmental, economic and civic leadership) issues.

The Plan covers a period of ten years. As part of the Plan, Council's Community Engagement Plan is included to assist with reviewing the Plan after each Council term.

Following community consultation, a Draft Plan was prepared and considered by Council at the April meeting; at that meeting, it was resolved that the Plan be adopted in principle and advertised for community comment – that consultation period will conclude on 29 May 2017 and a report will be provided to the June meeting.

## 7.9 DISABILITY INCLUSION ACTION PLAN

The *NSW Disability Inclusion Act 2014* (the Act) requires local Councils to develop Disability Inclusion Action Plans (DIAP) in consultation with people with disability to improve access and inclusion to local government services for people with a disability.

The Act requires local councils to develop and implement Disability Inclusion Action Plans that must:

- Address how the Disability Inclusion Act's principles will be addressed;
- Include specific strategies to support people with disability;
- Describe how people with disability were consulted;
- Describe how the plan supports the NSW Disability Inclusion Plan;
- Be made available to the public;
- Be reviewed in consultation with people with disability every four years; and
- Include progress reports published annually in Council's Annual Report.

In order to support the NSW Inclusion Plan, the Council's DIAP must specifically address the four key focus areas nominated by people with disability, as being of primary importance in creating an inclusive community. These are:

- Developing positive community attitudes and behaviours;
- Creating liveable communities;
- Supporting access to meaningful employment; and
- Improving access to services through better systems and processes.

Following community consultation, a Draft Plan was prepared and considered by Council at the April meeting; at that meeting, it was resolved that the Plan be adopted in principle and advertised for community comment – that consultation period will conclude on 29 May 2017 and a report provided to the June meeting.

## 7.10 POLICY MANUAL REVIEW UPDATE

### **Summary**

The purpose of this report is to provide Council with an update relating to the Policy Manual Review.

### **Commentary**

Council's Policy Manual, last updated in 2013, contains many policies that are outdated and far from best practice, with some policies not revised since adoption in 2009. Many of the policies are in fact not policy but moreso procedures, and some are specifically legislated elsewhere.

For some time, senior management have been undertaking a review of the existing policies and a tabulated summary of the current review status is attached to this report.

### **Policy Implications**

At completion of the review, Council's Policy Register will be reviewed and updated.

### **Financial Implications**

Not applicable.

### **Legal Implications**

Review and update of the Policy Register will ensure Council is addressing it's legislative responsibilities.

### **Community Consultation**

Adoption of the revised Policy Register (when completed) in principle will see it placed on public exhibition for a period of 28 days.

- (b) if the matter concerned is a matter other than a personnel matter concerning particular individuals, the personal hardship of a resident or ratepayer or a trade secret – unless the Council or committee concerned is satisfied that discussion of the matter in an open meeting would, on balance, be contrary to the public interest.

For the purpose of determining whether the discussion of a matter in an open meeting would be contrary to the public interest section 10B(4) of the Act states it is irrelevant that:

- (a) a person may interpret or misunderstand the discussion, or
