

**MINUTES OF THE ORDINARY COUNCIL MEETING HELD IN THE
COUNCIL CHAMBERS, 21 REID STREET, WILCANNIA
ON WEDNESDAY, 25 AUGUST 2021**

PRESENT: Administrator, Bob Stewart – via video

IN ATTENDANCE: General Manager, Greg Hill
Director Shire Services, Reece Wilson - via video
Deputy Director Shire Services, Dave Miranda - via video
Director Business Services, Gordon Seeto - via video
Senior Finance Officer, Kevin Smith - via video
Senior Planner, Glenda Dunn - via video
Acting Rates Officer, Darryl Telfer - via video
Human Resources Officer, Evelyn Pollard - via video
Community Engagement Officer, Jennie Geerdink - via video
Ivan Draganjac, Roads Engineer - via video
Tammie McMaster, Cemeteries Officer - via video
Jamie Parsons, Executive Assistant - via video

1. OPENING OF MEETING

The meeting was declared open at 9.00am.

2. ACKNOWLEDGEMENT OF COUNTRY

An acknowledgement of the traditional custodians of the land was delivered by the Administrator, Bob Stewart.

3. APOLOGIES AND LEAVE OF ABSENCE

NIL

4. DISCLOSURES OF INTEREST

Pursuant to the Mode Code of Conduct for Local Councils in NSW Councillors and Councilstaff are required to declare any pecuniary or non-pecuniary conflicts of interest.

Recommendation:

Nil disclosures of interest, however it was noted that the Administrators camera wasn't working for the beginning of the Council meeting.

5. CONFIRMATION OF MINUTES

5.1 ORDINARY MEETING – 28 JULY 2021

Resolved

That the Minutes of the Ordinary Council Meeting held on 28 July 2021 be received and confirmed as an accurate record.

Minute Number:

5.2 BUSINESS ARISING

NIL

5.2.1 CORRESPONDENCE RECEIVED FROM THE HON MELINDA PAVEY MP

Resolved

1. Receive and note the correspondence.

Minute Number: 01-08-2021

5.2.2 CORRESPONDENCE RECEIVED FROM THE HON MARK COULTON MP

Resolved

1. Receive and note the correspondence.

Minute Number: 02-08-2021

6. MAYORAL (ADMINISTRATOR) MINUTE(S)

6.1 ADMINISTRATORS REPORT

The General Manager provided an update on the current COVID situation within the shire and Councils response to date.

There are currently 42 cases in Wilcannia as of 10am on 24 August 2021. Nil cases in White Cliffs, Ivanhoe and Menindee. There are a few persons currently isolating in Menindee due to being in close contact with persons in Wilcannia on Friday 13th August 2021 at the funeral. Council has set up a food distribution centre in Wilcannia. Council has received from Resilience NSW 10 Food Pallets and 5 hygiene pallets which have all been distributed last Saturday 21 August 2021 to the Wilcannia Community. Each member of the community received a food hamper, and each household received a hygiene hamper. Wilcannia has also been receiving a lot of donated food, fresh produce (fruit and vegetables), bread, long-life milk, dried goods (e.g., flour) and hygiene products (Shampoo and Conditioner, Toilet Paper, Tissues etc.).

The grocer stores are currently open at each of the locations within the Shire and are functional. Members of the public who aren't isolating due to having COVID or having close contact with a member of the public who has COVID are still able to go to the grocer for essential items. There are also a number of click and collect services that are currently being set up. The Menindee grocer is organising click and collect services by local volunteers to provide a service to the elderly and are picking up their orders and delivering it to their home address. The Council has also been in discussions with Coles and Woolworths to organise deliveries to Wilcannia and White Cliffs. This will also be a click and collect where members of the public can place their order online. Council has arranged transportation through Resilience NSW and Transport NSW. Transport NSW will be picking up the costs of the transportation of the deliveries. Ivanhoe is still self-sufficient for the moment and they aren't requiring any additional supports. The Ivanhoe store did close for a period of 24 hours for a deep clean due to a close contact being in the store, however it has now reopened.

There are currently additional Police in Wilcannia and the ADF. They are here to support the local Police force and to assist with compliance and any other duties that are required. They are also assisting the health care services with testing facilities and the vaccination clinic. AUSMAT ADF Team are also in Wilcannia. They arrived yesterday and will be here for the

remainder of the week in an attempt to fully vaccinate the locals by going door to door. The pop-up vaccination clinic is also still running by the RFDS Team at the Hall; Council is assisting with the administration side of things. The testing clinic is located at the Oval/Showground which is run by FWLHD; Council is assisting with traffic control. FWLHD is also going door to door to complete testing on locals who have been reported to have COVID and are currently in isolation or locals who have had close contact with a person who has COVID and are currently in isolation.

As of yesterday, it has been reported that 2 Council staff have contracted COVID-19 and are currently in isolation. The operation services from the engineering team in Wilcannia are very minimal. Most of the engineering staff are currently in isolation awaiting test results or waiting to be tested. The staff that have had close contact with the staff members who have COVID are required to isolate for 14 days. Council has scaled their operations back to the bare minimum to sewerage operation, emergency response and waste collection. All other operations and field work have been ceased for the moment.

Resolved

1. Receive and note the report.

Minute Number: 03-08-2021

7. FINANCIAL REPORTS

7.1 OUTSTANDING RATES AND CHARGES ACTION PLAN

Resolved

1. Receive and note the report.
2. Consolidate recovery actions for Rates and Annual Charges with recovery actions for Water Consumption Charges into single and combined claims.
3. Limit the issue and service of Statements of Claim under the Civil Procedure Act 2005 to claims of \$1000 or more.

Minute Number: 04-08-2021

7.2 SMART WATER METERS, METER READINGS AND BILLING UPDATE

Due to the current COVID outbreak in Wilcannia, there will not be any meter readings of the non-smart water meters. There are only about 28 meters that aren't smart meters. Historically they do not record usage. The Director of Shire Services has also indicated the Meter Readings for Menindee and Ivanhoe will still go ahead at this point. All meter readings will be on schedule for the readings and billing.

Resolved

1. Receive and note the report.
2. Receive the next quarterly reports on water meter reading, billing and collections at the Ordinary Council Meeting scheduled for 27 October 2021.
3. A Policy and Procedure be brought forward for Water Meter Restrictions.

Minute Number: 05-08-2021

7.3 FINANCIAL PERFORMANCE REPORT

Resolved

1. Receive and note the report.

Minute Number: 06-08-2021

7.3.1 TABELED REPORT – CASH AND INVESTMENTS – JULY 2021

Resolved

1. Receive and note the report.

Minute Number: 07-08-2021

7.4 COUNCIL 2021-2022 CURRENT GRANTS REGISTER

Resolved

1. Receive and note the report.

Minute Number: 08-08-2021

8. GOVERNANCE REPORTS

8.1 MEDIA RELATIONS POLICY

Resolved

1. Receive and note the report.
2. Place the Media Relations Policy on Public Exhibition for a period of no less than 28 days and a further report be presented to Council.

Minute Number: 09-08-2021

8.2 HON PAUL TOOLE MP – CORRESPONDENCE RECEIVED ABOUT ROAD SAFETY CAMPAIGN IN FAR WEST NSW

Resolved

1. Receive and note the report.

Minute Number: 10-08-2021

8.3 HUMAN RESOURCE MANAGEMENT ACTIVITIES

Resolved

1. Receive and note the report.

Minute Number: 11-08-2021

8.4 COMMUNITY ENGAGEMENT UPDATE

Resolved

1. Receive and note the report.

Minute Number: 12-08-2021

9. CORPORATE SERVICES REPORTS

9.1 ITC SECURITY STATUS REPORT

The Director of Business Services stated that Council is coordinating with their third-party partner EFEX to consolidate with the plan and compliments with the migration to the cloud platform with the additional infrastructure. The Director of Business Services is in discussion with EFEX at the moment with fleshing out the plan and organising for the implantation of migration of the cloud-based platform.

Resolved

1. Receive and note the report.
2. Endorse the ITC Security Status Report.

Minute Number: 13-08-2021

10. SHIRE SERVICES REPORTS

10.1 DEVELOPMENT APPLICATION D12/21 PAN 103637 – 30-40 JAMES STREET WILCANNIA NSW 2836

Resolved

1. Receive and note the assessment report by an independent consultant, and the determination letter for a Development Application D12/21 PAN 103637 at 30-40 James Street Wilcannia (Lot 1, DP 812602).
2. Approve the Development Application for the erection of a four bay open front machinery shed and workshop building for Council subject to the conditions and reasons outlined in the approval.

Minute Number: 14-08-2021

CONDITIONS OF CONSENT

Prescribed Conditions

All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).

BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);

A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:

- Showing the name, address, and telephone number of the Principal Certifying Authority for the work, and
- Showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours and stating that unauthorised entry to the work site is prohibited.
- Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.

Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the following information:

- in the case of work for which a principal contractor is required to be appointed:
 - the name and licence number of the principal contractor, and
 - the name of the insurer by which the work is insured under Part 6 of that Act,
- in the case of work to be done by an owner-builder:
 - the name of the owner-builder, and
 - if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.
- If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:

- protect and support the adjoining premises from possible damage from the excavation, and
- where necessary, underpin the adjoining premises to prevent any such damage.
- must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
- the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place.

Reason:

Legislative requirement.

General Requirements

Unless authorised by Council:

Building construction and delivery of material hours are restricted to:

- 7.00 am to 5.00 pm inclusive Monday to Friday,
- 8.00 am to 1.00 pm inclusive on Saturday,
- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

- 8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders, and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.

At all times after the submission the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of a final Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.

Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.

Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.

Prior to the release of the Construction Certificate, payment of the Long Service Levy is required. This payment can be made at Council or to the Long Services Payments Corporation.

Payment is not required where the value of the works is less than \$25,000. The Long Service Levy is calculated on 0.35% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.

The applicant shall bear the cost of all works associated with the development that occurs on Council's property.

No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.

Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.

No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.) or on the land to be developed shall be removed or damaged during construction unless specifically approved in this consent including for the erection of any fences, hoardings, or other temporary works.

Prior to the commencement of any development onsite for:

- Building/s that are to be erected
- Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place

- Building/s that are to be demolished
- For any work/s that is to be carried out
- For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.

The works must comply with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice.

Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.

Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following:

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

- Swimming Pools Act 1992
- Swimming Pools Amendment Act 2009
- Swimming Pools Regulation 2018
- Australian Standard AS1926 Swimming Pool Safety
- Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
- Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.

A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.

Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.

Swimming pools and spas must be registered with the Division of Local Government.
Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

SCHEDULE 1B

PRIOR TO CONSTRUCTION CERTIFICATE/COMMENCEMENT OF WORK/HEALTH AND BUILDING

1. PROTECTION OF ADJOINING AREAS

A temporary hoarding or temporary construction site fence must be erected

between the work site and adjoining lands before the works begin and must be kept in place until after the completion of the works if the works

- (a) could cause a danger, obstruction or inconvenience to pedestrian or vehicular traffic, or
- (b) could cause damage to adjoining lands by falling objects, or
- (c) involve the enclosure of a public place or part of a public place.

2. ADJOINING WALL DILAPITATION REPORT

(1) If a wall on a lot is to be built to a boundary and there is a wall (the adjoining wall) on the lot adjoining that boundary that is less than 0.9m from that boundary, the person having the benefit of the complying development certificate must obtain a dilapidation report on the adjoining wall.

(2) If the person preparing the report is denied access to the adjoining lot for the purpose of inspecting the adjoining wall, the report may be prepared from an external inspection of the adjoining wall.

3. ASBESTOS REMOVAL WORKS

All works removing asbestos containing materials must be carried out by a suitably licensed asbestos removalist duly licensed with Safework NSW, holding either a Friable (Class A) or a Non-Friable (Class B) Asbestos Removal Licence which ever applies.

A copy of the relevant licence shall be made available to any authorised Council officer on request within 24 hours. Five days prior to the commencement of licensed asbestos removal, Safework NSW must be formally notified of the works. All adjoining properties and those opposite the development must be notified in writing of the dates and times when asbestos removal is to be conducted.

The notification must identify the licensed asbestos removal contractor and include a contact person for the site together with telephone number and email address.

All work must be carried out in accordance with the Work Health and Safety Regulation 2017 and the NSW Government and SafeWork NSW document entitled How to manage and control asbestos in the workplace: Code of Practice (Safework NSW) December 2011 and associated guidelines.

The asbestos removalist must use signs and barricades to clearly indicate the area where the asbestos removal work is being performed. Signs must be placed in positions so that people are aware of where the asbestos removal work area is and should remain in place until removal is completed and clearance to reoccupy has been granted. Responsibilities for the security and safety of the asbestos removal site and removal must be specified in the asbestos removal control plan (where required). This includes inaccessible areas that are likely to contain asbestos.

Warning signs must be placed so they inform all people nearby that asbestos removal work is taking place in the area. Signs must be placed at all the main entry points to the asbestos removal work area where asbestos is present. These signs must be weatherproof, constructed of light-weight material and adequately secured so they remain in prominent locations. The signs must be in accordance with AS 1319 -1994 Safety Signs for the Occupational Environment for size, illumination, location, and maintenance.

Asbestos waste must only be transported and disposed of at an EPA licensed waste facility. No asbestos products are to be reused on the site (i.e., packing pieces, spacers, formwork or fill etc).

No asbestos laden skips or bins are to be left in any public place without the written approval of Council.

A site notice board must be located at the main entrance to the site in a prominent position and must have minimum dimensions of 841mm x 594mm (A1) with any text on the notice to be a minimum of 30 point type size.

The site notice board must include the following:

1. contact person for the site;
2. telephone and facsimile numbers and email address; and
3. site activities and time frames.

4. INSTALLATION OF DUAL-FLUSH TOILETS

All toilets installed within the development must be of water efficient dual-flush or other water saving capacity with at least a 4-star rating under the Water Efficiency and Labelling Scheme (WELS). The details must be submitted for the approval of the Accredited Certifier, prior to a Construction Certificate being issued.

5. INSTALLATION OF WATER EFFICIENT TAPS

All taps and shower heads installed must be water efficient with at least a 4-star rating under the Water Efficiency and Labelling Scheme (WELS). The details are to be submitted for the approval of the Principal Certifier, prior to any Occupation Certificate being issued.

6. WASTE AND RECYCLING MANAGEMENT - MINOR

Council requires the proposal facilities to minimise and manage waste and recycling generated by the proposal.

(1) A waste management plan for the work must be submitted to the principal certifying authority at least 2 days before work commences on the site

(2) The waste management plan must—

(a) identify all waste (including excavation, demolition and construction waste materials) that will be generated by the work on the site, and

(b) identify the quantity of waste material in tonnes and cubic metres to be—

(i) reused on-site, and

(ii) recycled on-site and off-site, and

(iii) disposed of off-site, and

(c) if waste materials are to be reused or recycled on-site—specify how the waste material will be reused or recycled on-site, and

(d) if waste materials are to be disposed of or recycled off-site—specify the contractor who will be transporting the materials and the waste facility or recycling outlet to which the materials will be taken.

(3) A garbage receptacle must be provided at the work site before works begin and must be maintained until the works are completed.

(4) The garbage receptacle must have a tight fitting lid and be suitable for the reception of food scraps and papers.

7. RUN – OFF AND EROSION CONTROLS

Run-off and erosion controls must be implemented to prevent soil erosion, water pollution or the discharge of loose sediment on the surrounding land by—

a. diverting uncontaminated run-off around cleared or disturbed areas, and

b. erecting a silt fence and providing any other necessary sediment control measures that will prevent debris escaping into drainage systems, waterways or adjoining properties, and

c. preventing the tracking of sediment by vehicles onto roads, and

stockpiling top soil, excavated materials, construction and landscaping supplies and debris within the lot.

SCHEDULE 1C

DURING CONSTRUCTION/PRIOR TO OCCUPATION/COMPLETION

8. OCCUPATION CERTIFICATE TO BE SUBMITTED

An Occupation Certificate must be obtained from the Principal Certifier and a copy submitted to Council prior to commencement of occupation or use of the whole or any part of a new building, an altered portion of, or an extension to an existing building.

9. HOURS OF WORK AND NOISE

The hours of construction and work on the development must be as follows:
All work, including demolition, excavation and building work, and activities in the vicinity of the site generating noise associated with preparation for the commencement of work (e.g., loading and unloading of goods, transferring of tools etc) in connection with the proposed development must only be carried out between the hours of 7.00am and 7.00pm on Mondays to Fridays, inclusive, and 7.00am and 5.00pm on Saturdays, and no work must be carried out on Sundays or public holidays.

All work, including demolition, excavation and building work must comply with the Australian Standard 2436-2010 Guide to Noise Control on Construction, Maintenance and Demolition Sites.

Notwithstanding the above, the use of a crane for special operations, including the delivery of materials, hoisting of plant and equipment and erection, and dismantling of onsite tower cranes which warrant the on- street use of mobile cranes outside of above hours can occur, subject to a permit being issued by Council under Section 68 of the Local Government Act 1993 and/or Section 138 of the Roads Act 1993.

Note: Works may be undertaken outside of hours, where it is required to avoid the loss of life, damage to property, to prevent environmental harm and/or to avoid structural damage to the building. Written approval must be given by the Construction Regulation Unit, prior to works proceeding.

The Council allows extended working hours subject to the approval of an application in accordance with the Code and under Section 4.55 of the Environmental Planning and Assessment Act 1979.

10. NOISE – DURING CONSTRUCTION

Construction noise

Noise caused by construction must not exceed an LAeq (15 min) of 5dB(A) above background noise when measured at any lot boundary of the property where the construction is being carried out.

11. ENCROACHMENTS – NEIGHBOURING PROPERTIES

No portion of the proposed structure shall encroach onto the adjoining properties.

12. DEMOLITION

Any demolition must be carried out in accordance with AS 2601—2001, The demolition of structures.

13. MAINTENANCE OF SITE

All materials and equipment must be stored wholly within the work site unless an approval to store them elsewhere is held.

Waste materials (including excavation, demolition and construction waste materials) must be managed on the site and then disposed of at a waste management facility.

Copies of receipts stating the following must be given to the principal certifying authority—

- a. the place to which waste materials were transported,
- b. the name of the contractor transporting the materials,
- c. the quantity of materials transported off-site and recycled or disposed of.
- d. Any run-off and erosion control measures required must be maintained within their operating capacity until the completion of the works to prevent debris escaping from the site into drainage systems, waterways, adjoining properties and roads.

During construction—

- e. all vehicles entering or leaving the site must have their loads covered, and
- f. all vehicles, before leaving the site, must be cleaned of dirt, sand and other materials, to avoid tracking these materials onto public roads.
- g. At the completion of the works, the work site must be left clear of waste and debris.

14 EARTHWORKS, RETAINING WALLS AND STRUCTURAL SUPPORT

Any earthworks (including any structural support or other related structure for the purposes of the development)—

- a. must not cause a danger to life or property or damage to any adjoining building or structure on the lot or to any building or structure on any adjoining lot, and
- b. must not redirect the flow of any surface or ground water or cause sediment to be transported onto an adjoining property, and
- c. that is fill brought to the site—must contain only virgin excavated natural material (VENM) as defined in Part 3 of Schedule 1 to the Protection of the Environment Operations Act 1997, and
- d. that is excavated soil to be removed from the site—must be disposed of in accordance with any requirements under the Protection of the Environment Operations (Waste) Regulation 2005.
- e. Any excavation must be carried out in accordance with Excavation Work: Code of Practice (ISBN 978-0-642-785442 [PDF] and ISBN 978-0-642-785459 [DOCX]), published in July 2012 by Safe Work Australia.

15 DRAINAGE CONNECTIONS

If the work is the erection of, or an alteration or addition to, a building, the roof stormwater drainage system must be installed and connected to the drainage system before the roof is installed.

Any approval that is required for connection to the drainage system under the Local Government Act 1993 must be held before the connection is carried out.

16 ARCHAEOLOGY DISCOVERED DURING WORKS

If any object having interest due to its age or association with the past is uncovered during the course of the work—

- a. all work must stop immediately in that area, and
- b. the Office of Environment and Heritage must be advised of the discovery.

Note

Depending on the significance of the object uncovered, an archaeological assessment and excavation permit under the Heritage Act 1997 may be required before further the work can continue.

17 ABORIGINAL OBJECTS DISCOVERED DURING WORKS

If any Aboriginal object (including evidence of habitation or remains) is discovered during the course of the work—

- a. all excavation or disturbance of the area must stop immediately in that area, and
- b. the Office of Environment and Heritage must be advised of the discovery in accordance with section 89A of the National Parks and Wildlife Act 1974.

Note—

If an Aboriginal object is discovered, an Aboriginal heritage impact permit may be required under the National Parks and Wildlife Act 1974.

18 COVERING OF LOADS

All vehicles involved in the excavation and/or demolition process and departing the property with demolition materials, spoil or loose matter must have their loads fully covered before entering the public roadway.

19 LOADING AND UNLOADING DURING CONSTRUCTION

The following requirements apply:

All loading and unloading associated with construction activity must be accommodated on site, where possible.

If, it is not feasible for loading and unloading to take place on site, a Works Zone on the street may be considered by Council.

A Works Zone may be required if loading and unloading is not possible on site. If a Works Zone is warranted an application must be made to Council at least 8 weeks prior to commencement of work on the site. An approval for a Works Zone may be given for a specific period and certain hours of the days to meet the need for the site for such facilities at various stages of construction. The approval will be reviewed periodically for any adjustment necessitated by the progress of the construction activities.

Where hoisting activity over the public place is proposed to be undertaken including hoisting from a Works Zone, a separate approval under Section 68 of the Local Government Act 1993 and Section 138 of the Roads Act 1993 must be obtained.

20 NO OBSTRUCTION OF PUBLIC WAY

The public way must not be obstructed by any materials, vehicles, refuse, skips or the like, under any circumstances. Non-compliance with this requirement will result in the issue of a notice by Council to stop all work on site.

21 USE OF MOBILE CRANES

The following requirements apply:

Mobile cranes operating from the road must not be used as a method of demolishing or constructing a building.

For special operations including the delivery of materials, hoisting of plant and equipment and erection, and dismantling of on site tower cranes which warrant the on-street use of mobile cranes, permits must be obtained from Council for the use of a mobile crane. The permits must be obtained 48 hours beforehand for partial road closures which, in the opinion of Council will create minimal traffic disruptions and 4 weeks beforehand in the case of full road closures and partial road closures which, in the opinion of Council, will create significant traffic disruptions.

The use of a crane for special operations, including the delivery of materials, hoisting of plant and equipment and erection and dismantling of on site tower cranes which warrant the on-street use of mobile cranes outside of approved hours of construction can occur, subject to a permit being issued by Council under

Section 68 of the Local Government Act 1993 and/or Section 138 of the Roads Act 1993.

22 CONTAMINATED SOILS

Requirement to Notify about New Contamination Evidence

Any new information revealed during demolition works that has the potential to alter previous conclusions about site contamination or hazardous materials shall be immediately notified to the Council and the Principal Certifying Authority.

Reason: To protect human health and the environment.

Compliance with the Remediation Action Plan

The requirements of the Remediation Action Plan required by this consent are to be fully implemented from commencement of any excavation, demolition or development works until the issue of any interim / final occupation certificate.

Reason: Protection of the environment, SEPP 55 compliance.

A validation report, is to be prepared in accordance with relevant guidelines issued under the Contaminated Land Management Act 1997 must be submitted to the Council within one month from completion of the remediation work.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to the issue of any interim / final Occupation Certificate.

If the site requires ongoing activities to control contamination, the validation report is to provide a list of ongoing measures to be undertaken to protect adjacent properties, the environment and the water table from further contamination.

Reason: To ensure environmental amenity is maintained.

23 VEHICULAR ACCESS

If the work involves the construction of a vehicular access point, the access point must be completed before the occupation certificate for the work on the site is obtained.

24 UTILITY SERVICES

If the work requires alteration to, or the relocation of, utility services on, or adjacent to, the lot on which the work is carried out, the work is not complete until all such works are carried out.

SCHEDULE 2 PRESCRIBED CONDITIONS

The prescribed conditions in accordance with Division 8A of the Environmental Planning and Assessment Regulation 2000 apply:

Clause 98 Compliance with Building Code of Australia and insurance requirements under the Home Building Act 1989

Clause 98A Erection of signs

Clause 98B Notification of Home Building Act 1989 requirements Clause 98C Conditions relating to entertainment venues.

Clause 98D Conditions relating to maximum capacity signage.

Clause 98E Conditions relating to shoring and adequacy of adjoining property Refer to the NSW State legislation for full text of the clauses under Division 8A of the

Environmental Planning and Assessment Regulation 2000. This can be accessed at:

<http://www.legislation.nsw.gov.au>

10.2 DEVELOPMENT APPLICATION D13/21 PAN 103827 – 28 PERRY STREET MENINDEE NSW 2879

Resolved

1. Receive and note the assessment report by an independent consultant and the determination letter for Development Application D13/21 PAN 103827 at 28 Perry Street Menindee NSW 2879 (Lot 1, DP 516293), for the erection of a four bay open front machinery shed with associated site works.
2. Approve the Development Application D13/21 PAN 103827 at 28 Perry Street Menindee NSW 2879 (Lot 1, DP 516293), for the erection of a four bay open front machinery shed with associated site works subject to conditions and reasons for the impositions.

Minute Number: 15-08-2021

CONDITIONS OF CONSENT

Prescribed Conditions

All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).

BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);

A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:

- showing the name, address and telephone number of the Principal Certifying Authority for the work, and
- showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
- stating that unauthorised entry to the work site is prohibited.
Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed. Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
 - in the case of work for which a principal contractor is required to be appointed:
 - the name and licence number of the principal contractor, and
 - the name of the insurer by which the work is insured under Part 6 of that Act,
 - in the case of work to be done by an owner-builder:
 - the name of the owner-builder, and
 - if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:

- protect and support the adjoining premises from possible damage from the excavation, and
- where necessary, underpin the adjoining premises to prevent any such damage.

- must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
- the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place. Reason: Legislative requirement.

General Requirements

Unless authorised by Council:

Building construction and delivery of material hours are restricted to:

- 7.00 am to 5.00 pm inclusive Monday to Friday,
- 8.00 am to 1.00 pm inclusive on Saturday,
- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

- 8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

- Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.

At all times after the submission the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of a final Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.

Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.

Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.

Prior to the release of the Construction Certificate, payment of the Long Service Levy is required. This payment can be made at Council or to the Long Services Payments Corporation.

Payment is not required where the value of the works is less than \$25,000. The Long Service Levy is calculated on 0.35% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.

The applicant shall bear the cost of all works associated with the development that occurs on Council's property.

No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths,

roadways, parks or grass verges without Council Approval.
Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.

No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.) or on the land to be developed shall be removed or damaged during construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.

Prior to the commencement of any development onsite for:

- Building/s that are to be erected
- Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
- Building/s that are to be demolished
- For any work/s that is to be carried out
- For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.

The works must comply with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice.

Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.

Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following;

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

- Swimming Pools Act 1992
- Swimming Pools Amendment Act 2009
- Swimming Pools Regulation 2018
- Australian Standard AS1926 Swimming Pool Safety
- Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
- Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
- A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
- Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewerred areas or managed on-site in unsewerred areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.
- Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

SCHEDULE 1B PRIOR TO CONSTRUCTION CERTIFICATE/COMMENCEMENT OF WORK/HEALTH AND BUILDING

1. PROTECTION OF ADJOINING AREAS

A temporary hoarding or temporary construction site fence must be erected between the work site and adjoining lands before the works begin and must be kept in place until after the completion of the works if the works

- (a) could cause a danger, obstruction or inconvenience to pedestrian or vehicular traffic, or
- (b) could cause damage to adjoining lands by falling objects, or
- (c) involve the enclosure of a public place or part of a public place.

2. ADJOINING WALL DILAPITATION REPORT

(1) If a wall on a lot is to be built to a boundary and there is a wall (the adjoining wall) on the lot adjoining that boundary that is less than 0.9m from that boundary, the person having the benefit of the complying development certificate must obtain a dilapidation report on the adjoining wall.

(2) If the person preparing the report is denied access to the adjoining lot for the purpose of inspecting the adjoining wall, the report may be prepared from an external inspection of the adjoining wall.

3. ASBESTOS REMOVAL WORKS

All works removing asbestos containing materials must be carried out by a suitably licensed asbestos removalist duly licensed with Safework NSW, holding either a Friable (Class A) or a Non-Friable (Class B) Asbestos Removal Licence which ever applies.

A copy of the relevant licence shall be made available to any authorised Council officer on request within 24 hours.

Five days prior to the commencement of licensed asbestos removal, Safework NSW must be formally notified of the works. All adjoining properties and those opposite the development must be notified in writing of the dates and times when asbestos removal is to be conducted. The notification must identify the licensed asbestos removal contractor and include a contact person for the site together with telephone number and email address.

All work must be carried out in accordance with the Work Health and Safety Regulation 2017 and the NSW Government and SafeWork NSW document entitled How to manage and control asbestos in the workplace: Code of Practice (Safework NSW) December 2011 and associated guidelines.

The asbestos removalist must use signs and barricades to clearly indicate the area where the asbestos removal work is being performed. Signs must be placed in positions so that people are aware of where the asbestos removal work area is and should remain in place until removal is completed and clearance to reoccupy has been granted. Responsibilities for the security and safety of the asbestos removal site and removal must be specified in the asbestos removal control plan (where required). This includes inaccessible areas that are likely to contain asbestos.

Warning signs must be placed so they inform all people nearby that asbestos removal work is taking place in the area. Signs must be placed at all the main entry points to the asbestos removal work area where asbestos is present. These signs must be weatherproof, constructed of light-weight material and adequately secured so they remain in prominent locations. The signs must be in accordance

with AS 1319 -1994 Safety Signs for the Occupational Environment for size, illumination, location, and maintenance.

Asbestos waste must only be transported and disposed of at an EPA licensed waste facility.

No asbestos products are to be reused on the site (i.e., packing pieces, spacers, formwork or fill etc).

No asbestos laden skips or bins are to be left in any public place without the written approval of Council.

A site notice board must be located at the main entrance to the site in a prominent position and must have minimum dimensions of 841mm x 594mm (A1) with any text on the notice to be a minimum of 30 point type size.

The site notice board must include the following:

1. contact person for the site;
2. telephone and facsimile numbers and email address; and
3. site activities and time frames.

4. INSTALLATION OF DUAL-FLUSH TOILETS

All toilets installed within the development must be of water efficient dual-flush or other water saving capacity with at least a 4-star rating under the Water Efficiency and Labelling Scheme (WELS). The details must be submitted for the approval of the Accredited Certifier, prior to a Construction Certificate being issued.

5. INSTALLATION OF WATER EFFICIENT TAPS

All taps and shower heads installed must be water efficient with at least a 4-star rating under the Water Efficiency and Labelling Scheme (WELS). The details are to be submitted for the approval of the Principal Certifier, prior to any Occupation Certificate being issued.

6. WASTE AND RECYCLING MANAGEMENT - MINOR

Council requires the proposal facilities to minimise and manage waste and recycling generated by the proposal.

(1) A waste management plan for the work must be submitted to the principal certifying authority at least 2 days before work commences on the site

(2) The waste management plan must—

(a) identify all waste (including excavation, demolition and construction waste materials) that will be generated by the work on the site, and

(b) identify the quantity of waste material in tonnes and cubic metres to be—

(i) reused on-site, and

(ii) recycled on-site and off-site, and

(iii) disposed of off-site, and

(c) if waste materials are to be reused or recycled on-site—specify how the waste material will be reused or recycled on-site, and

(d) if waste materials are to be disposed of or recycled off-site—specify the contractor who will be transporting the materials and the waste facility or recycling outlet to which the materials will be taken.

(3) A garbage receptacle must be provided at the work site before works begin and must be maintained until the works are completed.

(4) The garbage receptacle must have a tight fitting lid and be suitable for the reception of food scraps and papers.

7. RUN – OFF AND EROSION CONTROLS

Run-off and erosion controls must be implemented to prevent soil erosion, water pollution or the discharge of loose sediment on the surrounding land by—

a. diverting uncontaminated run-off around cleared or disturbed areas, and

b. erecting a silt fence and providing any other necessary sediment control measures that will prevent debris escaping into drainage systems, waterways or

adjoining properties, and
c. preventing the tracking of sediment by vehicles onto roads, and stockpiling top soil, excavated materials, construction and landscaping supplies and debris within the lot.

SCHEDULE 1C DURING CONSTRUCTION/PRIOR TO OCCUPATION/COMPLETION'

8. OCCUPATION CERTIFICATE TO BE SUBMITTED

An Occupation Certificate must be obtained from the Principal Certifier and a copy submitted to Council prior to commencement of occupation or use of the whole or any part of a new building, an altered portion of, or an extension to an existing building.

9. HOURS OF WORK AND NOISE

The hours of construction and work on the development must be as follows:
All work, including demolition, excavation and building work, and activities in the vicinity of the site generating noise associated with preparation for the commencement of work (eg loading and unloading of goods, transferring of tools etc) in connection with the proposed development must only be carried out between the hours of 7.00am and 7.00pm on Mondays to Fridays, inclusive, and 7.00am and 5.00pm on Saturdays, and no work must be carried out on Sundays or public holidays.

All work, including demolition, excavation and building work must comply with the Australian Standard 2436-2010 Guide to Noise Control on Construction, Maintenance and Demolition Sites.

Notwithstanding the above, the use of a crane for special operations, including the delivery of materials, hoisting of plant and equipment and erection, and dismantling of on site tower cranes which warrant the on- street use of mobile cranes outside of above hours can occur, subject to a permit being issued by Council under Section 68 of the Local Government Act 1993 and/or Section 138 of the Roads Act 1993.

Note: Works may be undertaken outside of hours, where it is required to avoid the loss of life, damage to property, to prevent environmental harm and/or to avoid structural damage to the building. Written approval must be given by the Construction Regulation Unit, prior to works proceeding.

The Council allows extended working hours subject to the approval of an application in accordance with the Code and under Section 4.55 of the Environmental Planning and Assessment Act 1979.

10. NOISE – DURING CONSTRUCTION

Construction noise

Noise caused by construction must not exceed an LAeq (15 min) of 5dB(A) above background noise when measured at any lot boundary of the property where the construction is being carried out.

11. ENCROACHMENTS – NEIGHBOURING PROPERTIES

No portion of the proposed structure shall encroach onto the adjoining properties.

12. DEMOLITION

Any demolition must be carried out in accordance with AS 2601—2001, The demolition of structures.

13. MAINTENANCE OF SITE

All materials and equipment must be stored wholly within the work site unless an approval to

store them elsewhere is held.

Waste materials (including excavation, demolition and construction waste materials) must be managed on the site and then disposed of at a waste management facility.

Copies of receipts stating the following must be given to the principal certifying authority—

- a. the place to which waste materials were transported,
- b. the name of the contractor transporting the materials,
- c. the quantity of materials transported off-site and recycled or disposed of.
- d. Any run-off and erosion control measures required must be maintained within their operating capacity until the completion of the works to prevent debris escaping from the site into drainage systems, waterways, adjoining properties and roads.

During construction—

- e. all vehicles entering or leaving the site must have their loads covered, and
- f. all vehicles, before leaving the site, must be cleaned of dirt, sand and other materials, to avoid tracking these materials onto public roads.
- g. At the completion of the works, the work site must be left clear of waste and debris.

14 EARTHWORKS, RETAINING WALLS AND STRUCTURAL SUPPORT

Any earthworks (including any structural support or other related structure for the purposes of

the development)—

- a. must not cause a danger to life or property or damage to any adjoining building or structure on the lot or to any building or structure on any adjoining lot, and
- b. must not redirect the flow of any surface or ground water or cause sediment to be transported onto an adjoining property, and
- c. that is fill brought to the site—must contain only virgin excavated natural material (VENM) as defined in Part 3 of Schedule 1 to the Protection of the Environment Operations Act 1997, and
- d. that is excavated soil to be removed from the site—must be disposed of in accordance with any requirements under the Protection of the Environment Operations (Waste) Regulation 2005.
- e. Any excavation must be carried out in accordance with Excavation Work: Code of Practice (ISBN 978-0-642-785442 [PDF] and ISBN 978-0-642-785459 [DOCX]), published in July 2012 by Safe Work Australia.

15 DRAINAGE CONNECTIONS

If the work is the erection of, or an alteration or addition to, a building, the roof stormwater drainage system must be installed and connected to the drainage system before the roof is installed.

Any approval that is required for connection to the drainage system under the Local Government Act 1993 must be held before the connection is carried out.

16 ARCHAEOLOGY DISCOVERED DURING WORKS

If any object having interest due to its age or association with the past is uncovered during the course of the work—

- a. all work must stop immediately in that area, and
- b. the Office of Environment and Heritage must be advised of the discovery.

Note

Depending on the significance of the object uncovered, an archaeological assessment and excavation permit under the Heritage Act 1997 may be required before further the work can continue.

17 ABORIGINAL OBJECTS DISCOVERED DURING WORKS

If any Aboriginal object (including evidence of habitation or remains) is discovered during the course of the work—

- a. all excavation or disturbance of the area must stop immediately in that area, and
- b. the Office of Environment and Heritage must be advised of the discovery in accordance with section 89A of the National Parks and Wildlife Act 1974.

Note—

If an Aboriginal object is discovered, an Aboriginal heritage impact permit may be required under the National Parks and Wildlife Act 1974.

18 COVERING OF LOADS

All vehicles involved in the excavation and/or demolition process and departing the property with demolition materials, spoil or loose matter must have their loads fully covered before entering the public roadway.

19 LOADING AND UNLOADING DURING CONSTRUCTION

The following requirements apply:

All loading and unloading associated with construction activity must be accommodated on site, where possible.

If, it is not feasible for loading and unloading to take place on site, a Works Zone on the street may be considered by Council.

A Works Zone may be required if loading and unloading is not possible on site. If a Works Zone is warranted an application must be made to Council at least 8 weeks prior to commencement of work on the site. An approval for a Works Zone may be given for a specific period and certain hours of the days to meet the need for the site for such facilities at various stages of construction. The approval will be reviewed periodically for any adjustment necessitated by the progress of the construction activities.

Where hoisting activity over the public place is proposed to be undertaken including hoisting from a Works Zone, a separate approval under Section 68 of the Local Government Act 1993 and Section 138 of the Roads Act 1993 must be obtained.

20 NO OBSTRUCTION OF PUBLIC WAY

The public way must not be obstructed by any materials, vehicles, refuse, skips or the like, under any circumstances. Non-compliance with this requirement will result in the issue of a notice by Council to stop all work on site.

21 USE OF MOBILE CRANES

The following requirements apply:

Mobile cranes operating from the road must not be used as a method of demolishing or constructing a building.

For special operations including the delivery of materials, hoisting of plant and equipment and erection, and dismantling of on site tower cranes which warrant the on-street use of mobile cranes, permits must be obtained from Council for the use of a mobile crane. The permits must be obtained 48 hours beforehand for partial road closures which, in the opinion of Council will create minimal traffic disruptions and 4 weeks beforehand in the case of full road closures and partial road closures which, in the opinion of Council, will create significant traffic disruptions.

The use of a crane for special operations, including the delivery of materials, hoisting of plant and equipment and erection and dismantling of on site tower cranes which warrant the on-street use of mobile cranes outside of approved hours of construction can occur, subject to a permit being issued by Council under

Section 68 of the Local Government Act 1993 and/or Section 138 of the Roads Act 1993.

22 CONTAMINATED SOILS

Requirement to Notify about New Contamination Evidence

Any new information revealed during demolition works that has the potential to alter previous conclusions about site contamination or hazardous materials shall be immediately notified to the Council and the Principal Certifying Authority.

Reason: To protect human health and the environment.

Compliance with the Remediation Action Plan

The requirements of the Remediation Action Plan required by this consent are to be fully implemented from commencement of any excavation, demolition or development works until the issue of any interim / final occupation certificate.

Reason: Protection of the environment, SEPP 55 compliance.

A validation report, is to be prepared in accordance with relevant guidelines issued under the Contaminated Land Management Act 1997 must be submitted to the Council within one month from completion of the remediation work.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to the issue of any interim / final Occupation Certificate.

If the site requires ongoing activities to control contamination, the validation report is to provide a list of ongoing measures to be undertaken to protect adjacent properties, the environment and the water table from further contamination.

Reason: To ensure environmental amenity is maintained.

23 VEHICULAR ACCESS

If the work involves the construction of a vehicular access point, the access point must be completed before the occupation certificate for the work on the site is obtained.

24 UTILITY SERVICES

If the work requires alteration to, or the relocation of, utility services on, or adjacent to, the lot on which the work is carried out, the work is not complete until all such works are carried out.

SCHEDULE 2 PRESCRIBED CONDITIONS

The prescribed conditions in accordance with Division 8A of the Environmental Planning and Assessment Regulation 2000 apply:

Clause 98 Compliance with Building Code of Australia and insurance requirements under the Home Building Act 1989

Clause 98A Erection of signs

Clause 98B Notification of Home Building Act 1989 requirements Clause 98C Conditions relating to entertainment venues.

Clause 98D Conditions relating to maximum capacity signage.

Clause 98E Conditions relating to shoring and adequacy of adjoining property Refer to the NSW State legislation for full text of the clauses under Division 8A of the Environmental Planning and Assessment Regulation 2000. This can be accessed at:

<http://www.legislation.nsw.gov.au>

10.3 DEVELOPMENT APPLICATION D14/21 PAN 104033 – 11 BEHRING STREET IVANHOE NSW 2878

Resolved

1. Receive and note the assessment report by an independent consultant and the determination letter for Development Application D13/21 PAN 103827 at 28 Perry Street Menindee NSW 2879 (Lot 1, DP 516293), for the erection of a four bay open front machinery shed with associated site works.
2. Approve the Development Application D13/21 PAN 103827 at 28 Perry Street Menindee NSW 2879 (Lot 1, DP 516293), for the erection of a four bay open front machinery shed with associated site works subject to conditions and reasons for the impositions.

Minute Number: 16-08-2021

CONDITIONS OF CONSENT

Prescribed Conditions

All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).

BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);

A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:

- showing the name, address and telephone number of the Principal Certifying Authority for the work, and
- showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
- stating that unauthorised entry to the work site is prohibited.
Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed. Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
 - in the case of work for which a principal contractor is required to be appointed:
 - the name and licence number of the principal contractor, and
 - the name of the insurer by which the work is insured under Part 6 of that Act,
 - in the case of work to be done by an owner-builder:
 - the name of the owner-builder, and
 - if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:

- protect and support the adjoining premises from possible damage from the excavation, and
- where necessary, underpin the adjoining premises to prevent any such damage.
- must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
- the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place. Reason: Legislative requirement.

General Requirements

Unless authorised by Council:

Building construction and delivery of material hours are restricted to:

- 7.00 am to 5.00 pm inclusive Monday to Friday,
- 8.00 am to 1.00 pm inclusive on Saturday,
- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

- 8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

- Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.

At all times after the submission the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of a final Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.

Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.

Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.

Prior to the release of the Construction Certificate, payment of the Long Service Levy is required. This payment can be made at Council or to the Long Services Payments Corporation.

Payment is not required where the value of the works is less than \$25,000. The Long Service Levy is calculated on 0.35% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.

The applicant shall bear the cost of all works associated with the development that occurs on Council's property.

No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.

Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.

No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.) or on the land to be developed shall be removed or damaged during construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.

Prior to the commencement of any development onsite for:

- Building/s that are to be erected
- Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
- Building/s that are to be demolished
- For any work/s that is to be carried out
- For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.

The works must comply with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice.

Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.

Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following;

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

- Swimming Pools Act 1992
- Swimming Pools Amendment Act 2009
- Swimming Pools Regulation 2018
- Australian Standard AS1926 Swimming Pool Safety
- Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
- Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
- A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
- Filter backwash waters shall be conveyed to the Sydney Water sewerage system in seweried areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any

wastewater system and is separate from any onsite stormwater management system.

- Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

SCHEDULE 1B PRIOR TO CONSTRUCTION CERTIFICATE/COMMENCEMENT OF WORK/HEALTH AND BUILDING

1. PROTECTION OF ADJOINING AREAS

A temporary hoarding or temporary construction site fence must be erected between the work site and adjoining lands before the works begin and must be kept in place until after the completion of the works if the works

- (a) could cause a danger, obstruction or inconvenience to pedestrian or vehicular traffic, or
- (b) could cause damage to adjoining lands by falling objects, or
- (c) involve the enclosure of a public place or part of a public place.

2. ADJOINING WALL DILAPITATION REPORT

(1) If a wall on a lot is to be built to a boundary and there is a wall (the adjoining wall) on the lot adjoining that boundary that is less than 0.9m from that boundary, the person having the benefit of the complying development certificate must obtain a dilapidation report on the adjoining wall.

(2) If the person preparing the report is denied access to the adjoining lot for the purpose of inspecting the adjoining wall, the report may be prepared from an external inspection of the adjoining wall.

3. ASBESTOS REMOVAL WORKS

All works removing asbestos containing materials must be carried out by a suitably licensed asbestos removalist duly licensed with Safework NSW, holding either a Friable (Class A) or a Non-Friable (Class B) Asbestos Removal Licence which ever applies.

A copy of the relevant licence shall be made available to any authorised Council officer on request within 24 hours.

Five days prior to the commencement of licensed asbestos removal, Safework NSW must be formally notified of the works. All adjoining properties and those opposite the development must be notified in writing of the dates and times when asbestos removal is to be conducted. The notification must identify the licensed asbestos removal contractor and include a contact person for the site together with telephone number and email address.

All work must be carried out in accordance with the Work Health and Safety Regulation 2017 and the NSW Government and SafeWork NSW document entitled How to manage and control asbestos in the workplace: Code of Practice (Safework NSW) December 2011 and associated guidelines.

The asbestos removalist must use signs and barricades to clearly indicate the area where the asbestos removal work is being performed. Signs must be placed in positions so that people are aware of where the asbestos removal work area is and should remain in place until removal is completed and clearance to reoccupy has been granted. Responsibilities for the security and safety of the asbestos removal site and removal must be specified in the asbestos removal control plan (where required). This includes inaccessible areas that are likely to contain asbestos.

Warning signs must be placed so they inform all people nearby that asbestos

removal work is taking place in the area. Signs must be placed at all the main entry points to the asbestos removal work area where asbestos is present. These signs must be weatherproof, constructed of light-weight material and adequately secured so they remain in prominent locations. The signs must be in accordance with AS 1319 -1994 Safety Signs for the Occupational Environment for size, illumination, location, and maintenance.

Asbestos waste must only be transported and disposed of at an EPA licensed waste facility.

No asbestos products are to be reused on the site (i.e., packing pieces, spacers, formwork or fill etc).

No asbestos laden skips or bins are to be left in any public place without the written approval of Council.

A site notice board must be located at the main entrance to the site in a prominent position and must have minimum dimensions of 841mm x 594mm (A1) with any text on the notice to be a minimum of 30 point type size.

The site notice board must include the following:

1. contact person for the site;
2. telephone and facsimile numbers and email address; and
3. site activities and time frames.

4. INSTALLATION OF DUAL-FLUSH TOILETS

All toilets installed within the development must be of water efficient dual-flush or other water saving capacity with at least a 4-star rating under the Water Efficiency and Labelling Scheme (WELS). The details must be submitted for the approval of the Accredited Certifier, prior to a Construction Certificate being issued.

5. INSTALLATION OF WATER EFFICIENT TAPS

All taps and shower heads installed must be water efficient with at least a 4-star rating under the Water Efficiency and Labelling Scheme (WELS). The details are to be submitted for the approval of the Principal Certifier, prior to any Occupation Certificate being issued.

6. WASTE AND RECYCLING MANAGEMENT - MINOR

Council requires the proposal facilities to minimise and manage waste and recycling generated by the proposal.

(1) A waste management plan for the work must be submitted to the principal certifying authority at least 2 days before work commences on the site

(2) The waste management plan must—

(a) identify all waste (including excavation, demolition and construction waste materials) that will be generated by the work on the site, and

(b) identify the quantity of waste material in tonnes and cubic metres to be—

(i) reused on-site, and

(ii) recycled on-site and off-site, and

(iii) disposed of off-site, and

(c) if waste materials are to be reused or recycled on-site—specify how the waste material will be reused or recycled on-site, and

(d) if waste materials are to be disposed of or recycled off-site—specify the contractor who will be transporting the materials and the waste facility or recycling outlet to which the materials will be taken.

(3) A garbage receptacle must be provided at the work site before works begin and must be maintained until the works are completed.

(4) The garbage receptacle must have a tight fitting lid and be suitable for the reception of food scraps and papers.

7. RUN – OFF AND EROSION CONTROLS

Run-off and erosion controls must be implemented to prevent soil erosion, water pollution or the discharge of loose sediment on the surrounding land by—

- a. diverting uncontaminated run-off around cleared or disturbed areas, and
- b. erecting a silt fence and providing any other necessary sediment control measures that will prevent debris escaping into drainage systems, waterways or adjoining properties, and
- c. preventing the tracking of sediment by vehicles onto roads, and stockpiling top soil, excavated materials, construction and landscaping supplies and debris within the lot.

SCHEDULE 1C DURING CONSTRUCTION/PRIOR TO OCCUPATION/COMPLETION'

8. OCCUPATION CERTIFICATE TO BE SUBMITTED

An Occupation Certificate must be obtained from the Principal Certifier and a copy submitted to Council prior to commencement of occupation or use of the whole or any part of a new building, an altered portion of, or an extension to an existing building.

9. HOURS OF WORK AND NOISE

The hours of construction and work on the development must be as follows:

All work, including demolition, excavation and building work, and activities in the vicinity of the site generating noise associated with preparation for the commencement of work (eg loading and unloading of goods, transferring of tools etc) in connection with the proposed development must only be carried out between the hours of 7.00am and 7.00pm on Mondays to Fridays, inclusive, and 7.00am and 5.00pm on Saturdays, and no work must be carried out on Sundays or public holidays.

All work, including demolition, excavation and building work must comply with the Australian Standard 2436-2010 Guide to Noise Control on Construction, Maintenance and Demolition Sites.

Notwithstanding the above, the use of a crane for special operations, including the delivery of materials, hoisting of plant and equipment and erection, and dismantling of on site tower cranes which warrant the on- street use of mobile cranes outside of above hours can occur, subject to a permit being issued by Council under Section 68 of the Local Government Act 1993 and/or Section 138 of the Roads Act 1993.

Note: Works may be undertaken outside of hours, where it is required to avoid the loss of life, damage to property, to prevent environmental harm and/or to avoid structural damage to the building. Written approval must be given by the Construction Regulation Unit, prior to works proceeding.

The Council allows extended working hours subject to the approval of an application in accordance with the Code and under Section 4.55 of the Environmental Planning and Assessment Act 1979.

10. NOISE – DURING CONSTRUCTION

Construction noise

Noise caused by construction must not exceed an LAeq (15 min) of 5dB(A) above background noise when measured at any lot boundary of the property where the construction is being carried out.

11. ENCROACHMENTS – NEIGHBOURING PROPERTIES

No portion of the proposed structure shall encroach onto the adjoining properties.

12. DEMOLITION

Any demolition must be carried out in accordance with AS 2601—2001, The demolition of structures.

13. MAINTENANCE OF SITE

All materials and equipment must be stored wholly within the work site unless an approval to store them elsewhere is held.

Waste materials (including excavation, demolition and construction waste materials) must be managed on the site and then disposed of at a waste management facility.

Copies of receipts stating the following must be given to the principal certifying authority—

- a. the place to which waste materials were transported,
- b. the name of the contractor transporting the materials,
- c. the quantity of materials transported off-site and recycled or disposed of.
- d. Any run-off and erosion control measures required must be maintained within their operating capacity until the completion of the works to prevent debris escaping from the site into drainage systems, waterways, adjoining properties and roads.

During construction—

- e. all vehicles entering or leaving the site must have their loads covered, and
- f. all vehicles, before leaving the site, must be cleaned of dirt, sand and other materials, to avoid tracking these materials onto public roads.
- g. At the completion of the works, the work site must be left clear of waste and debris.

14 EARTHWORKS, RETAINING WALLS AND STRUCTURAL SUPPORT

Any earthworks (including any structural support or other related structure for the purposes of the development)—

- a. must not cause a danger to life or property or damage to any adjoining building or structure on the lot or to any building or structure on any adjoining lot, and
- b. must not redirect the flow of any surface or ground water or cause sediment to be transported onto an adjoining property, and
- c. that is fill brought to the site—must contain only virgin excavated natural material (VENM) as defined in Part 3 of Schedule 1 to the Protection of the Environment Operations Act 1997, and
- d. that is excavated soil to be removed from the site—must be disposed of in accordance with any requirements under the Protection of the Environment Operations (Waste) Regulation 2005.
- e. Any excavation must be carried out in accordance with Excavation Work: Code of Practice (ISBN 978-0-642-785442 [PDF] and ISBN 978-0-642-785459 [DOCX]), published in July 2012 by Safe Work Australia.

15 DRAINAGE CONNECTIONS

If the work is the erection of, or an alteration or addition to, a building, the roof stormwater drainage system must be installed and connected to the drainage system before the roof is installed.

Any approval that is required for connection to the drainage system under the Local Government Act 1993 must be held before the connection is carried out.

16 ARCHAEOLOGY DISCOVERED DURING WORKS

If any object having interest due to its age or association with the past is uncovered during the course of the work—

- a. all work must stop immediately in that area, and
- b. the Office of Environment and Heritage must be advised of the discovery.

Note

Depending on the significance of the object uncovered, an archaeological assessment and excavation permit under the Heritage Act 1997 may be required before further the work can continue.

17 ABORIGINAL OBJECTS DISCOVERED DURING WORKS

If any Aboriginal object (including evidence of habitation or remains) is discovered during the course of the work—

- a. all excavation or disturbance of the area must stop immediately in that area, and
- b. the Office of Environment and Heritage must be advised of the discovery in accordance with section 89A of the National Parks and Wildlife Act 1974.

Note—

If an Aboriginal object is discovered, an Aboriginal heritage impact permit may be required under the National Parks and Wildlife Act 1974.

18 COVERING OF LOADS

All vehicles involved in the excavation and/or demolition process and departing the property with demolition materials, spoil or loose matter must have their loads fully covered before entering the public roadway.

19 LOADING AND UNLOADING DURING CONSTRUCTION

The following requirements apply:

All loading and unloading associated with construction activity must be accommodated on site, where possible.

If, it is not feasible for loading and unloading to take place on site, a Works Zone on the street may be considered by Council.

A Works Zone may be required if loading and unloading is not possible on site. If a Works Zone is warranted an application must be made to Council at least 8 weeks prior to commencement of work on the site. An approval for a Works Zone may be given for a specific period and certain hours of the days to meet the need for the site for such facilities at various stages of construction. The approval will be reviewed periodically for any adjustment necessitated by the progress of the construction activities.

Where hoisting activity over the public place is proposed to be undertaken including hoisting from a Works Zone, a separate approval under Section 68 of the Local Government Act 1993 and Section 138 of the Roads Act 1993 must be obtained.

20 NO OBSTRUCTION OF PUBLIC WAY

The public way must not be obstructed by any materials, vehicles, refuse, skips or the like, under any circumstances. Non-compliance with this requirement will result in the issue of a notice by Council to stop all work on site.

21 USE OF MOBILE CRANES

The following requirements apply:

Mobile cranes operating from the road must not be used as a method of demolishing or constructing a building.

For special operations including the delivery of materials, hoisting of plant and equipment and erection, and dismantling of on site tower cranes which warrant the on-street use of mobile cranes, permits must be obtained from Council for the use of a mobile crane. The permits must be obtained 48 hours beforehand for partial road closures which, in the opinion of Council will create minimal traffic disruptions and 4 weeks beforehand in the case of full road closures and partial road closures which, in the opinion of Council, will create significant traffic

disruptions.

The use of a crane for special operations, including the delivery of materials, hoisting of plant and equipment and erection and dismantling of on site tower cranes which warrant the on-street use of mobile cranes outside of approved hours of construction can occur, subject to a permit being issued by Council under Section 68 of the Local Government Act 1993 and/or Section 138 of the Roads Act 1993.

22 CONTAMINATED SOILS

Requirement to Notify about New Contamination Evidence

Any new information revealed during demolition works that has the potential to alter previous conclusions about site contamination or hazardous materials shall be immediately notified to the Council and the Principal Certifying Authority.

Reason: To protect human health and the environment.

Compliance with the Remediation Action Plan

The requirements of the Remediation Action Plan required by this consent are to be fully implemented from commencement of any excavation, demolition or development works until the issue of any interim / final occupation certificate.

Reason: Protection of the environment, SEPP 55 compliance.

A validation report, is to be prepared in accordance with relevant guidelines issued under the Contaminated Land Management Act 1997 must be submitted to the Council within one month from completion of the remediation work.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to the issue of any interim / final Occupation Certificate.

If the site requires ongoing activities to control contamination, the validation report is to provide a list of ongoing measures to be undertaken to protect adjacent properties, the environment and the water table from further contamination.

Reason: To ensure environmental amenity is maintained.

23 VEHICULAR ACCESS

If the work involves the construction of a vehicular access point, the access point must be completed before the occupation certificate for the work on the site is obtained.

24 UTILITY SERVICES

If the work requires alteration to, or the relocation of, utility services on, or adjacent to, the lot on which the work is carried out, the work is not complete until all such works are carried out.

SCHEDULE 2 PRESCRIBED CONDITIONS

The prescribed conditions in accordance with Division 8A of the Environmental Planning and Assessment Regulation 2000 apply:

Clause 98 Compliance with Building Code of Australia and insurance requirements under the Home Building Act 1989

Clause 98A Erection of signs

Clause 98B Notification of Home Building Act 1989 requirements Clause 98C Conditions relating to entertainment venues.

Clause 98D Conditions relating to maximum capacity signage.

Clause 98E Conditions relating to shoring and adequacy of adjoining property Refer to the NSW State legislation for full text of the clauses under Division 8A of the Environmental Planning and Assessment Regulation 2000. This can be accessed at:

10.4 PLANNING PROPOSAL TO RECLASSIFY LAND

Resolved

1. Receive and note that the reclassification of the community land to operational land for Lots 2, 3 and 4 DP 1201089, and Lot 111 DP 1201028, Bonney Street, Wilcannia, amendment has been made the Central Darling Local Environmental Plan 2012.
2. Proceed with the process for the sale of land at Lots 2, 3, and 4 DP 1201089, and Lot 111 DP 1201028, Bonney Street, Wilcannia.

Minute Number: 17-08-2021

10.5 UNSUPERVISED SWIMMING POOLS

Resolved

1. Receive and note the report.
2. Implement Unsupervised Swimming Pool Operations at Ivanhoe and White Cliffs over the 2021-2022 swimming season with the view of phasing out Lifeguards following that swimming season or the current season depending upon the satisfactory implementation.

Minute Number: 18-08-2021

10.6 LEASE BETWEEN COUNCIL AND THE BUREAU OF METEOROLOGY

Resolved

1. Receive and note the report.
2. Resolve to affix the Common Seal of Council to the Lease between Central Darling Shire and the Bureau of Meteorology for the purpose of accessing the Wilcannia Aerodrome Land, Lot 1 DP 90670.

Minute Number: 19-08-2021

10.7 SERVICES UPDATE

Resolved

1. Receive and note the report.

Minute Number: 20-08-2021

10.8 ROADS AND AERODROMES REPORT

Resolved

1. Receive and note the report.

Minute Number: 21-08-2021

10.9 WATER AND SEWER UPDATE

Resolved

1. Receive and note the report.

Minute Number: 22-08-2021

11. MINUTES OF COMMITTEE MEETINGS

11.1 MINUTES – WHITE CLIFFS COMMUNITY ASSOCIATION – 30 JULY 2021

Resolved

1. The minutes of the White Cliffs Community Association (WCCA) meeting held on the 30 of July 2021 were received and noted.

Minute Number: 23-08-2021

12. CONFIDENTIAL MATTERS

It was resolved that Council moved into Confidential to consider the matters listed in the confidential section of the agenda in accordance with Section 10A 2 of the *Local Government Act 1993* for the reasons specified. Confidential section was closed to the public and began at 9.42am.

The General Manager reviewed the resolutions of the confidential matters and reported the following for the listed reports:

12.1 RURAL AND URBAN ADDRESSING

Resolved

1. Receive and note the report that Council engage Charters Technology for a disclosed amount of money for the engagement of Council's GIS Operating System and to assist with Urban and Rural Addressing.

Minute Number: 24-08-2021

The Administrator moved Council out of Confidential and reopened it to the public at 9.44am.

13. RESOLUTION TRACKER

13.1 RESOLUTION TRACKER – OUTSTANDING RESOLUTIONS

Resolved

1. The Resolution Tracker from the Council Meeting on 25 July 2021 was received and noted.

Minute Number: 25-08-2021

14. MEETING CLOSE

It was recorded that the Administrator expressed his appreciation and efforts of staff during the COVID crisis that Wilcannia and the Shire is currently facing and that further reporting on the situation will be received.

There being no further business to discuss, the meeting was closed at 9.45am.

The minutes of this meeting were confirmed at the Ordinary Meeting of the Central Darling Shire Council held on Wednesday, 22 September 2021.
