The Integrated Planning and Reporting Framework

As part of the New South Wales Government's commitment to a strong and sustainable local government system, legislation was enacted in October 2009 that introduced a planning reporting tool for local government known as the Integrated Planning and Reporting (IP&R) framework.

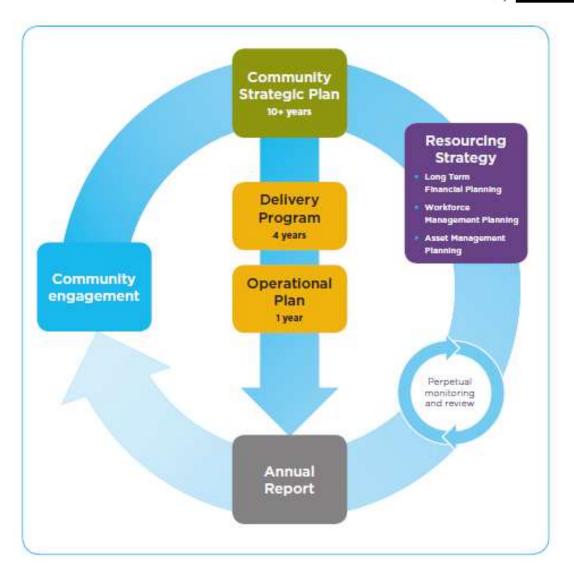

The following diagram identifies the various components of the integrated planning and reporting framework and how they are linked to each other.

| STRATEGY/PLAN | PURPOSE | CURRENCY/ EXPIRY |
|--|---|------------------|
| Community Strategic Plan (CSP) | Peak plan providing public, private and non- government agencies, local community and other stakeholders with priority issues to address and goals for achievement in the longer term | 10 years |
| Resourcing Strategy: | Strategy comprising three plans (see below) to ensure Council is able to adequately resource its ongoing activities and operations whilst working towards the CSP's long-term goals | |
| - Long Term Financial Plan | Plan documenting Council's projected income and expenditure and modelling to ensure long-term financial sustainability | 10 years |
| - Asset Management Plan | Plan providing a comprehensive account of the service standards and maintenance requirements and schedules for all council assets. | 10 years |
| Workforce Management Plan | Plan identifying Council's anticipated human resource priorities and activities to meet the goals and targets of the Delivery Program | 4 years |
| Delivery Program | Plan documenting Council activities, projects and initiatives during each Council term, to work towards the long-term goals and targets described in CSP | 4 years |
| Operational Plan | Annual plan programming ongoing activities, projects and initiatives and budget to achieve Delivery Program goals and targets | 1 year |
| Annual Report | Report documenting Council activities in relation to its statutory responsibilities and reporting on progress of projects and initiatives outlined in the Operational Plan | 1 year |

Documents in the IP&R Framework

The following diagram identifies the various components of the IP&R framework and how they are linked to each other.

The Central Darling Shire Operational Plan and Budget

This This Operational Plan and Budget is renewed on an annual basis. It is structurally aligned with the Community Strategic Plan and Delivery Program and should be read in reference to these other plans.

It provides a detailed account of annual actions and planned expenditure that Council will undertake in working towards the long term goals in the Community Strategic Plan.

The Operational Plan also includes a detailed annual budget and financial statements, and an account of Council's fees and charges to be set for the financial year.

RESOURCING – Local and Regional Governance

Statement of Revenue

Overview

The Statement of Revenue details how rates and annual charges are set, as well as fees and charges for use of Council facilities and services.

Ordinary Rates

Ordinary rates contribute to essential services such as the road network, street lighting, street cleaning, footpaths, parks, sport and recreation facilities, environmental planning and conservation, rangers, pest control, town planning and building control, community services, and much more.

The total amount of ordinary rates Council can charge is capped by legislation. The Independent Pricing and Regulatory Tribunal has approved a 2.0% rate peg for 2021-22 as the allowable increase on this capped amount.

This capped amount is effectively shared between all ratepayers according to the individual value and rating category of their property .

Under the Valuation of Land Act 1916 Council is required to use the most current land values when calculating ordinary and special rates. These values are provided by the NSW Valuer General (VG), the independent statutory authority responsible for determining land values in NSW. The latest values provided by the VG are being used for levying rates in and have a base date of 1 July 2019.

Council has a limited number of methods or structures available under the Local Government Act 1993 when setting ordinary rates as follows:

- Ad Valorem Rate only;
- Ad Valorem Rate which is subject to a minimum amount of the rate; or
- A Base Amount to which an ad valorem amount is added.

All available rate structures are primarily based on the unimproved land value of property. Council may also set different rates for different categories. These methods or structures can be used to move rate burden between different rate payer groups without changing the total amount of rates available to Council.

Historically Council has adopted a Base Amount plus Ad Valorem Rate structure. Application of a uniform Base Amount Rate provides for an equal and minimum contribution by all ratepayers to the base costs of running Council.

Categories

In accordance with s 514 of the Local Government Act 1993, all parcels of rateable land in Council's area have been classified into one of the following categories of Ordinary rates:

Farmland s 515 of the Local Government Act 1993

Land is categorised as farmland if it is a parcel of rateable land valued as one assessment where its dominant use is for farming and which has a significant and substantial commercial purpose or character and is engaged in for the purpose of profit on a continuous or repetitive basis.

Rural residential land is not categorised farmland.

Residential s 516 of the Local Government Act 1993

Land is categorised as residential if it is a parcel of rateable land valued as one assessment and its dominant use is for residential accommodation or rural residential land or if it is vacant land it is zoned or otherwise designated for use under an environmental planning instrument for residential purposes.

Business s 518 of the Local Government Act 1993

Land is to be categorised as business if it cannot be categorised as farmland or residential. Caravan parks and manufactured home communities are to be categorised business.

The categorisation of all rateable land was determined as at 1 January 1994 with the issue of the rate notice in January 1994. New parcels of land created since that date have been categorised with the issue of subsequent rate notices. Where subsequent changes in categorisation have occurred, written notices to this effect have been issued in accordance with s 520 of the Local Government Act 1993.

Annual Charges

In addition to ordinary rates, Council will levy annual charges for the following services in 2021-22:

Domestic waste management services – s496 of the Local Government Act 1993

Waste management services (non-domestic) – s501 of the Local Government Act 1993

Water supply services - s501 of the Local Government Act 1993

Sewerage services - s501 of the Local Government Act 1993

Domestic Waste Management Service Charges

Domestic Waste is defined in the Local Government Act 1993 as "waste on domestic premises of a kind and quantity ordinarily generated on domestic premises and includes waste that may be recycled, but does not include sewage."

Council levies a domestic waste management service charge on all parcels of rateable land to which a domestic waste management service is available. This charge covers the cost of providing domestic waste collection services, whole of life cost for managing waste including the remediation of landfills.

Section 504 of the Local Government Act 1993 requires that the cost of providing Domestic Waste Management Services must be fully covered by the income derived from charges for these services.

Water Supply Charges

In accordance with NSW Government guidelines, Council is required to adopt a pricing policy for water supply services and sewerage services delivery charges. Such a pricing policy requires that the cost of providing services in one area are funded from charges levied for those services in that area.

The price of this service should be set at a rate sufficient to enable the recovery of annual operating and maintenance costs and to enable a contribution to be made towards the cost of replacement of the infrastructure assets utilised in providing the service.

All rateable properties that are connected to, or within 225 metres of, Council's water supply pipe, are subject to an annual water service charge.

Additional charges apply for each kilolitre of water used, as measured by individual water meters with Water Usage accounts issued on a quarterly basis.

Ivanhoe Water Supply Service

The service is provided to supply both filtered and raw water to residents in the township of Ivanhoe and a rural water supply.

Wilcannia Water Supply Service

The Service is provided to supply both filtered and raw water to residents in the township of Wilcannia and a rural water supply. Raw water connections to rateable properties are unmetered.

While a number of options are being explored, the current price structure is based on sourcing and treating water from existing bores and the Darling River.

In the event of severe water shortage, Rural users will no longer be connected to the town supply until such time as water supply has been increased. Rural users can obtain water by carting from the bore located at Warrawong Farm in Wilcannia.

White Cliffs Water Supply Service

The service is provided to supply non-potable water to residents in the township of White Cliffs.

Council is working towards bringing the White Cliffs water supply up to a potable standard during 2021-22. Should these works be completed in the 2021-22 is period, Water Supply Service charges set for non-potable supply will continue to apply for potable supply.

Sewerage Services

In accordance with NSW Government guidelines, Council is required to adopt a pricing policy for water supply services and sewerage services delivery charges. Such a pricing policy requires that the cost of providing services in one area are funded from charges levied for those services in that area.

Sewerage services are provided by Council only within the township of Wilcannia.

Sewerage Services - Wilcannia

The service is provided as a means of disposing of domestic strength effluent.

Sewerage Service Charges apply to all rateable properties that are either;

- connected to a Council sewer, or;
- within 75 metres of a Council sewer and from which sewage could be discharged to that Council sewer.

Where a property has more than two (2) connections to Council's sewer, additional charges apply for each additional connection.

| Additional | more than 2 | \$301.00 | \$307.00 | 158 | \$48,506 |
| Charge | connections | | | | |

Pensioner concessions

Council provides a rate reduction to eligible pensioners under the Local Government Act, of:

- 50% of the combined Ordinary Rate and Domestic Waste Management Service Charge, to a maximum of \$250 per annum;
- 50% of the Water Service Charge to a maximum of \$87.50 per annum; and
- 50% of the Sewerage Service Charge to a maximum of \$87.50 per annum

Where there is a change in eligibility, concessions are adjusted from the commencement of the quarter following the change in eligibility.

The NSW Government subsidies Council for 55% of the cost of pensioner concessions with Council bearing the remaining 45%.

There are approximately 140 eligible pensioners in the Central Darling Shire. The total value of pensioner concessions for 2021-22 will be approximately \$37,000 with the net cost to Council estimated at \$16,700.

Maximum Interest on Overdue Rates and Charges

In accordance with section 566(3) of the Act, it has been resolved by Council that the rate of interest payable on overdue rates and charges for the 2020-21 rating year will be 6% being the maximum rate prescribed by The Independent Pricing and Regulatory Tribunal under the regulations.

Fees and Charges

In accordance with Section 608 of the Local Government Act 1993 and other relevant legislation, Council charges and recovers approved fees and charges for any services it provides.

In cases where the amount of fees and charges for service is determined under another Act or regulatory body, Council's policy is not to determine an amount that is inconsistent with the amount determined under the other Act or regulatory body.

All of Councils fees and charges not subject to statutory control are reviewed on an annual basis prior to finalisation of Council's annual operational budget. In special circumstances, fees and charged can be reviewed and approved by Council in accordance with the Local Government Act and regulations.
