Public Notice - Hire of Council Venues

Central Darling Shire Council has available halls, pools, and grounds for hire in towns across the Shire.

These venues can book out and people wanting to hire Council facilities are encouraged to book as soon as they know they want to hold an event to avoid missing out on their desired venue and date.

Council requires all relevant documentation to be lodged with the application form at least 14 days before the event/activity is intended to start. If an application is lodged without all relevant documents the 14 days' notice period will start from the date on which all paperwork has been received by Council. This is to allow for the various approval processes to be completed in time for your event to go ahead.

The necessary forms for the hire of Council facilities and/or to host an event are available at your nearest Council office or on the website.
